FOR IMMEDIATE RELEASE

Laredo, Texas – Doctors Hospital has tested two patients for novel coronavirus (COVID-19). We are working closely with the City of Laredo Health Department, following guidelines from the Centers for Disease Control, to continue to evaluate the patients and follow appropriate protocols.

We encourage the public to practice precautions by thoroughly washing your hands, covering your cough and sneeze, and avoid touching your eyes, nose and mouth to prevent the spread of disease. We have enacted a patient screening process at our hospital and kindly request anyone who is ill remains at home, unless they are seeking medical care.

Learn more about the coronavirus at <https://www.cdc.gov/>
