## **Description:**

On Tuesday, 05/31/2016 I Dy John Cummings upon exiting my residence at appx 1330 hrs to feed and water K9 Duke observed that K9 was missing from his kennel located under the north east corner of my carport.

I then attempted to locate K9 and after a short time calling and walking around the residence looking for him I observed him in the rear of my patrol unit with the windows up. I then began to administer aid to K9 and transported to Caldwell Animal Clinic located in Columbia, LA for treatment due to he was very lethargic and had very poor respiration.
