

Channel Master®

DIGITAL ADVANTAGE

HDTV, VHF High Band and UHF

CM-2016, 2018, 2020 OUTDOOR ANTENNAS

APPLICATION

The Channel Master Digital Advantage series are compact outdoor TV antennas engineered to receive high quality digital/HDTV broadcast over channels 7 to 51. These antennas are smaller in size than traditional antennas because the channel 2 to 6 capability has been removed. Since only a few broadcast stations now use channels 2 to 6 so the Digital Advantage series antennas are the perfect choice for many areas.

FEATURES & BENEFITS

- Quality design from a brand you trust
- Compact size
- UPS shippable, smaller informative retail friendly package
- Offers optimum reception for today's digital reception
- Manufactured with thicker aluminum and superior plastics made to withstand extreme temperatures and increased durability and longevity
