

FOR IMMEDIATE RELEASE

MAY 17, 2020

## POTTAWATTAMIE COUNTY NEW COVID-19 CASES

On May 17, Pottawattamie County Public Health (PCPH) reported 3 new COVID-19 cases, all of which are Council Bluffs residents. Two of the cases are 18-40 years old and one is 41-60 years old. These individuals were tested between May 14 and May 15. Thus far, 2,014 Pottawattamie County residents have been tested for COVID-19, and a total of 162 have tested positive.

An additional 6 people have recovered bringing the total of recoveries to 74. Currently, two individuals are hospitalized, 83 individuals are self-isolating. The vast majority of positive cases have not required hospitalization and have been able to fully recover at home. Based on PCPH contact tracing investigations, a total of 55 Pottawattamie County COVID-19 cases are the result of community spread.

For additional COVID-19 information, including case demographics filtered by county, visit the Iowa Department of Public Health's COVID-19 dashboard at <https://coronavirus.iowa.gov/>. The dashboard is updated daily and contains Iowa's total number of cases, recoveries, deaths, tests conducted, and epidemiological curve.

PCPH continues to conduct contact tracing investigations for each COVID-19 case. If and when a risk to the general public is identified, PCPH will publicly identify the location and communicate any actions the public should take.

Because we have community spread of COVID-19, individuals should take precautions to protect themselves. Stay home as much as possible, limit travel and shopping, practice social distancing by staying at least six feet away from others. Wash hands and disinfect frequently touched surfaces multiple times per day. If you are sick, stay home.

Iowans are encouraged to go to [www.testiowa.com](http://www.testiowa.com) and complete the assessment. TestIowa is an initiative designed to increase the rate of COVID-19 testing in Iowa. If you have COVID-19 symptoms or develop symptoms (fever, cough, shortness of breath), contact your healthcare provider before going to the doctor's office or an emergency room.
