Honorable President

and Members of the City Council

The attached ordinance would create regulations for the operation of motorized scooters in the City of Omaha. This ordinance would create a clear definition of a motorized scooter and create the offense of Motorized Scooter Operation Violation.

As the City of Omaha moves forward with another scooter pilot program, it is important that there are clear and definitive rules on their operation. When the scooter pilot was conducted last year law enforcement and prosecutors were forced to cobble together applicable state statutes and current ordinances for enforcement. Omaha would join numerous other municipalities in the United States that regulate the use of these motorized scooters. This ordinance would allow for the safe and proper operation of these scooters, just as many laws regulate and control other forms of transportation in Omaha.

The proposed violations took into account what other cities have done and the many concerns that were raised about the scooters last year. The ordinance includes, among other requirements, a prohibition from operating on a sidewalk, an age limit on operating a motorized scooter, and following the rules of the road. The purpose is not to discourage people from using these alternate forms of transportation but to set boundaries for their use.

I ask the City Council to consider this ordinance. If the City of Omaha is going to have motorized scooters, it is only right and proper that there are rules in place governing their operation.

Respectfully Submitted,
